Correct!

NFTs have helped create a new:

C creator economy

Explanation

NFTs helped create the creator economy.

Next question

Correct!

Two NFTs representing the same artwork are the same thing.

B False

Explanation

NFTs are non-fungible. This means even if they represent the piece of digital art, they are still uniquely identifiable. In the traditional artworld, this might be similar to originals and prints.

Correct!

NFTs on Ethereum are harmful to the environment

B False

Explanation

Since The Merge (transition to proof-of-stake), any transaction has been a negligible impact on the environment.

Next question

Correct!

NFTs are most comprehensively defined as:

A unique digital assets

Explanation

NFTs represent a unique digital asset.

Next question

Correct!

NFTs most commonly represent:

B Ownership of a unique digital item

Explanation

NFTs commonly represent ownership of a unique digital item.
